# ***INTRODUCTION***

## OVERVIEW

The Sahoda Labs identity is built on three elements: two mirrored blade forms, their upward angle, and a modular geometric construction. Together they express partnership two shapes, neither complete without the other — pairing each business's identity with intelligent technology.

Crafted on a modular grid from a single repeating blade unit, the mark carries depth and balance. The vibrant palette, anchored by Sahoda Orange #FF4B00, conveys energy and optimism against a confident ink and warm-neutral base, so colour always signals action. Garet for display and Outfit for interface complete a modern, legible system.

The result reflects our mission — to give every small business a marketing teammate — with a vibrant, intelligent, dependable presence.

## BRAND VALUES

These are our brand's core beliefs — the foundation we build Sahoda's personality on.

While not an exhaustive list,  
it's a collation of our strongest values.

# YOUR BUSINESS. MARKETED. EVERY DAY.

## BRAND PROMISE

At Sahoda Labs, We Give Every Business A Marketing Teammate Not Just Another Tool. Learning Your Brand Once, We Plan, Create, Test, And Publish Marketing That Sounds Like You And Gets Sharper Every Week. Every Post And Every Credit Reflects One Commitment: Earning Your Trust So You Grow Without Living Online.

***LOGO***

## ICON

Our icon is the face of our brand. An abstract letter "Q" which is the first letter of the brand name. It combines two abstract shapes to form.

The icon symbolizes an piano in negative space along with the curve symbolizing a person playing it. "Making Music"

Use the logomark for the banner, favicon, etc.

Do not scale the icon below 32px.

## LOGO

Our logo is an abstract letter "Q" with a negative space symbolizing a piano which conveys meaning to what we do as an entertainment platform alongside a sans serif font called Kaio.

Our logo conveys innovation, confidence and boldness. Use the logo wisely with the correct guidelines and do not change the font accompany it.

## WORDMARK

Our wordmark is set in Garet, chosen for its geometric clarity and confident, modern character.

The word **"Sahoda"** carries the weight, **"Labs."** sits quietly beside it.

Always reproduce it as supplied - never redraw, restretch, or re-space the letterforms.

## LOCKUPS

The logo may be used in two different configurations, with the icon and wordmark arranged horizontally and vertically. When possible, use the horizontal configuration. Use the vertical configuration sparingly, when the layout lends itself to a centered orientation or horizontal space is limited.

## CLEARSPACE

The logo must have breathing space at all times to appear clearly. To ensure they are always legible and unobstructed, it is important to size them properly and provide sufficient clear space around the logo.

For the horizontal logo orientation, maintain a clear space that is equal to the height of the Icon divided by 1.3px

For the vertical orientation, maintain a clear space that is equal to the height of the letter "N"

IN EVERY  
DETAIL.**

## VERSIONS

Our logo's preferred colour usage shows the blade mark in our brand Orange.

It can be used in any colour of the brand, but ensure the combination is subtle and holds perfect contrast.

Our main look is the logo in orange on an ink background, or ink on paper & vice versa.

## USAGE GUIDELINE

The Sahoda Labs mark includes the Sahoda Labs name and logo, and any word, phrase, image, or other designation that identifies the source or origin of any Sahoda Labs asset.

Please do not modify the marks or use them in a confusing way that associates Sahoda Labs with another brand.

***COLOURS***

COLOURS

Our colour palette is puposefully chosen to capture unique essence of our brand.

Near Green is iconic. It is the primary colour of our brand and reflects our brand archetype and ethos. Near Red, Grey and ofcourse Black and White are our secondary colours and their use is heavily paired with Near Green.

Together, these colours create a bold and retro yet modern look and overall visual identity that stands out.

## FONT

# NEUE REGRADE

Neue Regrade is a sophisticated variable sans serif typeface.  
Perfect for this brand. It combines the smooth curves of gothic  
typography and the slight inktraps in modern typefaces.

The typeface at the heart of the QUIXEL brand  
is Neue Regrade.

We use Neau Regrade for every brand touchpoint.

The brand fonts was carefully chosen keeping in mind  
our brand personality, audience and versatile  
applications.

WEIGHT AND HIERARCHY

Neue Regrade is available in five weights—from Light to Bold.

This allows us to uniformly set all text in Neue Regrade while still enabling type hierarchy through weight distribution.

## WEIGHT AND HIERARCHY

When creating layouts using Neue Regrade, clear hierarchy can be established by varying the weights and scale appropriately.

### Weights:

- Semi Bold is used for headlines, Bold can be used in large scale occasionally.
- Medium is used for subheadlines.
- Regular, Light and Medium can all be used for the body type.

### Scale:

Hierarchy of scale can be achieved by ensuring that subheadlines are set no larger than the height of the lowercase characters of the headline above it, and that body copy is set to roughly 50% of the cap height of the subheadline above it.

***PHOTOGRAPHY***

## PHOTOGRAPHY

Good photography is important in all of our branded communications. Our photographic outlook should capture real moments of dynamic connection, people coming together. This outlook should stylistically echo the rest of our brand design system: bold, clean, and optimistic; and full of life and energy.

These are expressed through three guiding principles: Bold, Together, Art, Sound, Music, Young, Futuristic, Retro, Abstract.
